Professional Summary

Full Stack Developer with hands-on experience building scalable web applications using React, Next.js, TypeScript, Node.js, MongoDB, PostgreSQL, and Prisma. Skilled in developing responsive user interfaces, designing backend systems, integrating authentication and payment solutions, and deploying production-ready applications. Experienced in building SaaS products, workflow automation platforms, and e-commerce solutions with a strong focus on performance, usability, and problem-solving. Passionate about learning new technologies and delivering impactful software solutions.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript

Frontend: HTML, CSS, React, Next.js, Tailwind CSS, React Flow, Shadcn/UI, Framer-Motion

Backend & APIs: Node.js, Express.js, Rest APIs

Frameworks & Tools: Git, GitHub, Postman, Razorpay, Vercel, Render

Database & ORM: MongoDB, PostgreSQL, Prisma

Authentication: OAuth, Auth.js (NextAuth), BetterAuth, Clerk

Background Processing: Inngest

Experience

Freelance

May 2026 - Present

Full Stack Developer

- Developed and maintained a full-stack e-commerce platform with product catalog, cart, order management, and admin functionalities.
- Implemented secure authentication, role-based access control, and online payment integration for seamless transactions.
- Optimized application performance, responsiveness, and user experience across desktop and mobile devices.

Tech: Next.js, React, TypeScript, PostgreSQL, Prisma, Tailwind CSS, Razorpay, Better Auth, Vercel

Projects

Portfolio | Next.js, Tailwind CSS, shadcn/ui, Framer Motion | [Live](#)

- Built a personal portfolio website showcasing projects, skills, and professional experience.
- Developed a fully responsive and modern UI with smooth animations and optimized performance.
- Focused on clean design, accessibility, and seamless user experience across devices.

Nodebase - Workflow Automation Platform | Next.js, tRPC, PostgreSQL, Prisma, Inngest, React Flow | [Live](#) | [Github](#)

- Developed a workflow automation platform with a visual node-based editor for designing and executing workflows.
- Built a workflow execution engine using topological sorting to ensure correct node execution order and dynamic variable passing.
- Integrated AI providers (OpenAI, Gemini, Anthropic) and third-party services including Discord, Slack, and Google Sheets.
- Implemented real-time execution monitoring, execution history tracking, BetterAuth authentication, and secure credential storage.

Digital Brain – Knowledge Management Platform | React, Node.js, Express.js, MongoDB | [Live](#) | [Github](#)

- Built a personal knowledge management platform for storing, organizing, and retrieving notes, links, and ideas.
- Implemented tag-based categorization, search functionality, and secure OAuth authentication.
- Designed a clean and responsive user interface focused on usability and productivity.
- Deployed the application using Vercel and Render with a scalable client-server architecture.

Education

Bachelor of Technology (Information Technology)

2022-2026

Guru Ghasidas Vishwavidyalaya, Bilaspur

CGPA: 8.74

Certification

- 100xDevs Cohort 3

Extracurricular Activities

- Awarded Gold Medal in an Inter-College Badminton Tournament. 2025
- Served as Lead of the IT Technical Team for Equilibrio Techfest. 2025
- Served as Senior Executive of the Cultural Team for Equilibrio Techfest. 2025
- Participated in Startup Sangam Conclave. 2024
- Associated with the National Service Scheme (NSS), GGV Bilaspur. 2022-2023
- Active member of Scouts and Guides. 2018-2020
